Master of his craft!

By Sharron Grodzinsky

What can I say, this is a Ken Follett book. He is a master of research and magician with prose. He manages to keep the reader totally involved in his books. In this epic novel he takes the reader from the coal mines of Scotland to the promised land of America, He intertwines his fiction with historical facts in such a way you could believe every detail really took place. This is the story of rebellion, of hope and of love. He is easily one of the best authors of this century.
