It is very easy to navigate and the quality of information is bar-none

By Amazon Customer

My husband and I are in graduate school and we use this every time we write papers. It is very easy to navigate and the quality of information is bar-none. It is worth the price, trust me! You definitely need this for school or work if you have to write in APA format. Not only is it good for guiding you through citation, but it also has writing technique and writing style guidance - it will help you if you struggle writing in passive voice or making long sentences. Great manual!
