Transformation of the city was the battle cry in the 90's. What's happening on the streets today? How far have we come since then? How do apostles fit into the urban landscape? How do they fit into God's plans? C. Peter Wagner, our generation's greatest authority on the apostolic realm, has been writing on these subjects for a number of years. He now brings these topics together in one volume for an insightful look at the spheres of authority that are all around us. Wagner's most authoritative book yet on apostles, *Apostles Today* looks at the progress of the New Apostolic Reformation begun in the 90's and continuing today. This book is a call for apostles to assume their rightful place of work with God to see His will accomplished here on earth. Wagner relates his decades of experiences and those of others, which show the role of apostles not only in the traditional church, but also in the extended church. *Apostles Today* offers fresh vision for the role of apostles in healthy churches, workplaces, cities and nations.

Not too much new, but good overview

By Lukas Targosz

Anyone interested in New Apostolic Reformation and current apostolic movement would certainly read everything C. Peter Wagner writes on apostles. This book is no exception, however after reading everything Wagner wrote on the subject before I have found no new information in this book. At first sight it seemed to me more like compilation of ideas and thoughts from previous books published both by Regal Books and Wagner Publications, so if you have read already books such as *Apostles and Prophets*, *Churchquake*, *The Spheres of Authority*, *Apostles in the City*, *Changing Church and Revival!*, you probably will find no reason to buy this book unless you would like to have a summary version of Wagner's teaching on apostles.

However, his teaching also evolves and goes to a new dimensions, so while in his early work on the subject he was merely defending the existence of apostles today, now he creates new broad teachings based more on revelation than Scripture. I find this less appealing than earlier way of research and writings Wagner did. Well, he is still one of my favourite authors, but *Churchquake* remains my favourite book on apostles Wagner wrote.

remarkably lacking exegesis

By Matthew Henry

If you want an abundance of anecdotes without serious exposition of scripture then this book is for you. Leaps of logic built on pure assumption.

Creative but not very compelling

By mikeandleslie

Hoping to find something fresh and missional in here, I was surprised to find something more Charismatic and less about mission work on the edges and more about leadership in big churches and institutional memberships (even a constant tiresome reference to a coalition of apostles!). For some reason, Wagner keeps emphasizing the governing role of apostles, and he reads this into the biblical passages more than shows how they're coming out of them. What I wished to find more stuff about was church planting, taking the gospel into virgin soil and other sorts of "sent" or "sending" aspects that a lot of missional literature is now talking about in reference to the apostolic gift in Ephesians 4:11.

Needless to say, it was a huge letdown to instead find stuff on spiritual covering, large followings, special anointing and authority, and the like that seem to be overly self-congratulatory. His overly-positive treatment didn't seem to match the tenor of what Paul spoke about apostles being misunderstood and fools and the scum of the earth; and nor did Wagner address Paul's actual refusal to draw a salary for himself though he was able to as an apostle.

To be fair though, Wagner is on the right track in going more organic by talking about workplace apostles and going out of the walls of traditional or mega church. But by the time he got there, I was mostly disenchanted with his overly positional take on what I see as a functional gifting. Nevertheless, I was glad to have read this as Wagner is -- for better or for worse -- the most vocal proponent who is setting the tone for what "apostolic" is and does.
