By Carrie Reed

Another really great read by Hinduja and Patchin. Cyberbullying Prevention and Response: Expert Perspectives is a collection works from of some of the most knowledgeable experts in the field of cyberbullying. I enjoyed how the book ranged from explanations of cyberbullying, to how it impacts our youth, and finishing with how we can try to help stop cyberbullying with implementation. While I felt some parts of this book was more difficult to read than their other books, because some of the experts' information was a little too technical for me, the compilation of several author's views on various aspects of cyberbullying was interesting to read and informative. This is a definite must read for anyone studying the topic of cyberbullying.
