Review

“Concise, clear, and constructively combative, Dr. Gorka’s book stands apart in its depth of understanding of Islamist terrorists and what their ultimate defeat demands of us. Above all, his defiance of political correctness makes this well-written, finely argued work of immediate practical value. The author has presented us with an inspiring defense not merely of intellectual integrity—so lacking among today’s intelligentsia—but of our civilization.”

—RALPH PETERS, Fox News strategic analyst and author of *Valley of the Shadow*

“Dr. Sebastian Gorka is one of the world’s leading experts in asymmetric warfare. In *Defeating Jihad* you get a glimpse of why his opinion matters in councils of war and in academia. He combines the perceptive with the analytic, the piercing intellect with the grit of real-world experience.”

—STEPHEN K. BANNON, executive chairman of Breitbart News

“America is at war, an unconventional war against a new totalitarian enemy. Sebastian Gorka understands this kind of war and the mind of our new enemy. This book provides America with a strategy to destroy ISIS or any group that follows the ideology of global jihad.”

—LT. GEN. CHARLES T. CLEVELAND, U.S. Army (Ret.), former Commanding General of U.S. Army Special Operations Command, home of the Green Berets

“For years Dr. Gorka has been telling the truth about the existential danger of jihadism. The threat is real and it is here in America. With ISIS even more dangerous than Al Qaeda, it is time to listen to what this man has to say. *Defeating Jihad* must be the foundation of our next commander in chief’s plan to win this war.”

—CONGRESSMAN TRENT FRANKS (R-Ariz.), member of the House Armed Services Committee

"This is a tremendous book!"

THE WINNABLE WAR

Since September 11, 2001, America has been at war. And that's about all anyone can say with certainty about a conflict that has cost 7,000 American lives and almost \$2 trillion. As long as the most basic strategic questions—Who is the enemy? Why are we fighting?—remain unanswered, victory is impossible.

Yet this war is eminently winnable if we remove our ideological blinders and apply basic strategic principles. That means accurately naming the enemy, understanding his plan, and drawing up a strategy to defeat him. So says Dr. Sebastian Gorka, one of the most experienced and sought-after authorities on counterterrorism.

Our enemy is not “terror” or “violent extremism.” Our enemy is the global jihadi movement, a modern totalitarian ideology rooted in the doctrines and martial history of Islam. America has defeated totalitarian enemies before. Providing a desperately needed dose of clarity, Dr. Gorka shows how we can do it again.

He reveals how a toxic political agenda has corrupted our national security practices, precluding the kind of clear-eyed threat analysis and strategic response that led to victory in the Cold War. Bracing, troubling, but ultimately encouraging, *Defeating Jihad* fills that gap.

Taking his cue from the formerly top-secret analyses that shaped the U.S. response to the communist threat, Dr. Gorka has produced a compelling profile of the jihadi movement—its mind and motivation—and a plan to defeat it.

Required reading

By Dean Hillestad

Solid and compelling strategies for winning the war against Islamic jihad.

Written by a recognized expert in national security who has a unique perspective of terror.

Dr Gorka gives concise, common sense solutions.

This book should be required reading for all members of Congress, and officials in National Security agencies. Candidates for national office would be wise to read it as well.

Defining the Principles of War

By Ray

As a former SF officer who served with three special units, two in RVN and as a ComSec officer responsible for TS information with special compartments, It is just plain painful to witness the failures of Obama/Clinton in disregarding the first principle of warfare which is to recognize and define the threat. Dr. Gorka is a master spokesman and articulates the threat, defines the enemy and offers common sense solutions. i have urged my Congressman here in Texas to read Dr. Gorka's book and to urge his colleagues to do the same.
