I DARE CALL IT TREASON: THE COUNCIL ON FOREIGN RELATIONS AND THE BETRAYAL OF AMERICA BY SERVANDO GONZALEZ PDF

The Council on Foreign Relations (CFR) describes itself as a sort of social club where the rich and powerful get together to discuss national and international politics from a rational, non-partisan, patriotic perspective. But, really, what is the Council on Foreign Relations? The CFR is many things. It is a millionaires club, a communo-fascist party in power, an intelligence agency, a think tank, a criminal gang, an association of assassins and mass murderers, a cabal of sociopaths and psychopaths, a sect involved in the occult and a pirates' den. Moreover, the CFR is the visible head of the Invisible Government of the United States. Its core nucleus is composed of international bankers, oil magnates and CEOs of transnational corporations. But, most importantly, the CFR is the true axis of evil in the world. The CFR's main enemy is the people of the world, particularly the American people. This explains why, behind every single act of treason against the American people, you can always find, hiding in the shadows, one or more members of the Council on Foreign Relations. The CFR's true, secret goal, is the elimination of 85 percent of the world's population as the first step in establishing a New World Order — a communo-fascist totalitarian dictatorship with just two social classes: the all-powerful masters, living in opulence, and the other 99 percent of the population, made up of oppressed serfs, with no rights at all, living in the most abject economic and moral poverty under a total surveillance police state. Is it time to overthrow the Invisible Government of the United States? Read this book and reach your own conclusions.

Reality of today's life.

By MANUEL ESTEVE

Servando continues with the same line of investigations and speculations that already developed in his previous book "Psychological Warfare" and "The New World Order". Mr. S. Gonzalez has written an amazing new book. If the first one shocked you, this one will leave you breathless. It is a punch right into your face that will wake you up from the government-media induced dream you live in -- the real Matrix. He provides hundreds of easily verifiable facts, proving without a shadow of a doubt that there is an invisible government of the United States and that its visible head is not in Washington, D.C. but in the Harold Pratt House in Manhattan, headquarters of the Council on Foreign Relations. He also proves, using their own words, that the members of this invisible government hate America and are working harder behind our backs to destroy it and enslave the American people.

If you still wonder about the truth of Waco, Oklahoma city, 9/11, the War on Terror, the Boston bombings, or New Orleans shooting, here you will find some answers that will make you hate the CFR conspirators who are capable of doing such terrible things against us. If you believe in your government, read the mainstream press, watch the TV channels and listen to "conservative" talk radio shows or "public radio," you should stay away from this book and keep living in a fantasy world -- or read this book at your own risk!

Not recommended for dyed-in-the-wool Republicans or "progressive" Democrats.

The Rabbit Hole presented this to me as a Tour Guide while looking around down here. It also has a flash light & camera

By James McDonald

As quoted by Daniel Inouye-Senator: "There exists a shadowy government with its own Air Force, its own Navy, its own fundraising mechanism, and the ability to pursue its own ideas of national interest, free from all checks and balances, and free from the law itself." (?Daniel Inouye, Senator was on the Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition (One Hundredth Congress), Committee on Commerce, Science and Transportation (One Hundred Tenth Congress), Committee on Appropriations (One Hundred Eleventh and One Hundred Twelfth Congresses);

This work is BIG TIME special. I've used it as reference all while reading several publications as of late. When reading different books regarding American leadership today and the last several decades, I pull this baby out to specifically ID the actions of the CFR within that specific time frame that other works might present.

Bingo!

I suspect that this is only one chapter of a bigger play but I feel this work by Servando Gonzalez is mandatory for mature adults that are looking for valid information, regardless of what the created social constructs might claim. One example is Maurice Greenberg who spoke via the Council of Foreign Relations who also happened to be the the AIG CEO at one time actually said that "Foreign policy ought to take precedence of law enforcement when it come to overseas operations" (See my review of Black 9/11: Money, Motive and Technology by Mark H. Gaffney for expanded details).There's more that I can present about what you might find in this tour guide but it don't mean nothing until you see it yourself.

Discloser: I like Servando Gonzalez and his observations so I have been influenced by his work in that all the books I've read, I do bounce it against what Mr. Gonzalez presents. It's not all inclusive but I do use this author as one of the major qualifers while reading other publications. The Truman show analogy came from this pub. (Edited, see my reivew Into The Buzzsaw: LEADING JOURNALISTS EXPOSE THE MYTH OF A FREE PRESS by Kristina Borjesson for details)

Some of the other publications I use to "bounce off what I might be reading at the time".

The Politics of Heroin: CIA Complicity in the Global Drug Trade
Conspiracy Theory in America (Discovering America)

And treason it is, no?

By Jerry Jewett

I Dare Call It Treason, Servando Gonzalez, Spooks Books, Hayward,CA © 2013

A skilled, experienced, and dedicated historian, working with his sleeves rolled up and his head down, has produced this clear, readable, credible investigation of a phenomenon about which relatively few people are aware, that being the wholesale hijacking of United States public policy determination by a self-anointed elite whose interests are far from congruent with the interests of ordinary Americans.

This book chronicles, with copious documentary references, the development of the Council on Foreign Relations (CFR) as the most influential entity in the proposal and establishment of American policy, both foreign and domestic. Enormous research has been condensed into a pithy and linear expose, which concludes that neither the Senate nor the House of Representatives has the weight in policy determination that the CFR does. This has been explored in less depth by Strakon and Neff, writing in their newsletter, "Dispatches from The Last Ditch" (hereafter, TLD), where they identify The Permanent Regime and outline its mischief, but that series had an unfortunately small readership.

Gonzalez's book is available for anyone who can to buy it, to study it and give thought to the usurpation of American government by a plutocratic elite. One can anticipate certain malefactors calling this "conspiracy theory." As John Paulson has written, "'Conspiracy Theory' is invoked when someone is uncomfortable with the message because it is not defined and they don't know what side they are on, or they don't like the message and they don't have a pre-packaged fall-back position provided by the word-smith warriors." (personal correspondence, 9-14-2013)

When the official journal of the CFR spends months or years bandying about prospective policy positions during times of transition, and then the foremost such policy becomes official American Policy, that is pretty public stuff, no conspiracy needed. Of course, we don't know what transpires in inner sanctum dealings, but this surely lacks the clandestine obscurity of a true cabal. Mr. Gonzalez found volumes of records!

Reviewing the list of Officers and Directors on pp. 244-245 shows us the de facto royalty of these United States, a royalty composed almost exclusively of the Dark Suits and Red Guards to whom TLD refers as "The Permanent Regime," or that institution behind the Government which uses the Government as its

standard tool.

With a patent lack of respect, I have grown to describe the Power Elite as "the Entrenched Hog-Dominant Overlords of the Universe," which gives them too much credit, but does convey the requisite disdain. Brad Linaweaver, minarchist writer, has said "There is very little that real conservatives and libertarians can do about the Power Elite. But there is something we can do. We should start an intellectual war of our own to take back the right from the neo-cons who are the fifth column inside our house. We don't want them running our wars. We don't want them protecting our borders." Post-Nationalism George W. Bush as President of the World, Kopubco, HuntingtonBeach, CA © 2006, p. 125. The CFR is among the prime vehicles by means of which neo-cons do their work. Of course, those of a more truly anarchist bent don't want "our wars" at all, but Linaweaver's point is still well taken.

Is there any kind of a peaceful escape from these policy snares in which Americans are bound? Linaweaver offers this "Modest Proposal for a New Loyalty Oath The following is intended for anyone in a government job at the Federal, State, or Local level: I pledge to support and defend the survival of the United States of America over any other country." P. 129. Though that would make a nice start, people have made vows and pledges without meaning them in the past, so it is hard to see that neo-cons or other CFR members would give a credible oath.

As I have told a few friends in the past few years, "If America did not have a State Department, we probably would not need a War Department (DOD)." The CFR has great leverage in State Department policy-making, which lays the ground for war.

Gonzalez takes this more pointed approach. "Now you know who are the main CFR members in the U.S. government. They have taken an oath of allegiance to defend the U.S. Constitution and have betrayed it. . . . All of them are traitors, and the only thing they cannot survive is exposure. So tell your friends who they are. Also, you should seize any opportunity to confront them and tell them to their faces that they are traitors." P. 240. A similar guerilla gambit would simply be to find the current writings of any given CFR stooge, research the story and the history, outline the tissue of lies involved in the CFR party line being propagated, and challenge the CFR votary.

However one responds to the challenge, studying I Dare Call It Treason makes a good beginning point for finding a way out of the oppression under which much of America suffers at the hands of the financial elite. [reviewed by Jerry Jewett]
