Margaret Walsh worked for six years to overcome the trauma she endured at the hands of bullies as a kid, and graduation promises the chance to start over in college and leave the past behind her for good.

What was supposed to be her last summer of fun before moving to Paris turns into a nightmare as her parents announce they're taking over management of a restaurant in the New England beach town where she spent her childhood. For them, it's an amazing possibility. For her, it means confronting memories— and people— she'd rather forget.

Margie's all grown up now, but some things never change. When Zach Robinson insists he's not the bully she remembers, it's all she can do not to laugh. Still, if she's learned anything over years, it's that everyone deserves an opportunity to be better.

Even lost causes need second chances, but with her heart on the line, asking her to bet on a long shot might take more faith than she's willing to give.

Forced to Face the Worst of Her Childhood Memories

By Rachel Barnard

Margie was bullied relentlessly as a child. It was only when her family moved that she was able to slowly recover and become a stronger and more put together person. It took her six years to gain back her confidence and decrease her panic attacks, but it takes all of one look at the boys who were her biggest tormentors to tear down all the defenses she'd built up. She needs a letter of recommendation from the new chef at the restaurant her parents work at, so she can't just leave. One boy in particular, Zack, keeps bothering her. He isn't the bully she used to know, but can she get over the fear she still has of him and the others and of getting hurt again?

Starla Huchton has done it again. I couldn't put down My Bittersweet Summer. The book flowed from

beginning to end and held its tension and my attention throughout the entirety of the story.

I always love Huchton's characters. Margie has so much personality and her past, though only told in bits and pieces throughout her present day life, is so alive for the reader. The events in Margie's past made her who she is and shaped who she has become. Present Margie is a product of Past Margie, but she has worked hard to become a new Margie. Going back to the place where her bullies tormented her would break anyone. Margie is not a super human, she is susceptible to bouts of panic and emotion when she has to confront the same bullies all grown up. She reacts with words and even her fist at one point, but there are other factors that keep her from losing all control. She can't beat up the restaurant owner's son. She can't kill her chance to get that recommendation. She can't let her parents down. She's forced to confront her fears and her tormentors and to rise to the challenge Zack presents.

Zack. I love a person who is trying to be a better person. He has a lot of past to overcome as one of those that stood by and let Margie get bullied. The ones who do nothing are just as guilty as those who are at the front of the assault. Zack has a lot to make up for and the way he tries is super sweet. I loved all his gestures and how hard he tried.

I absolutely love Starla's style and the story of *My Bittersweet Summer*.

A Wonderful Story About Second Chances!

By Girls *Heart* Books

Wow I really loved this story. And as a victim of childhood bullying myself, I wasn't sure how I'd react to it. I'm so glad I took the chance, though, because despite the tears I shed while reading, I enjoyed it immensely. The story is poignant and captivating, the characters are engaging and real-flawed but lovable despite their negative aspects. This is a book about second chances and finding who you were always meant to be despite the ways we can stand in our own way at times. It was beautiful and I highly recommend it to anyone who loves to get caught up in a wonderful book.

Romantic YA

By Beyond the Foo

I really enjoyed this book. Basically a contemporary YA romance but deals very elegantly with themes of bullying.
