From the reviews:

"This single author text is an excellent book and I would recommend it as a reference text to all surgeons with an interest in Rhinoplasty. ... It is in fact the distillation of the author's lifetime practice in this field. The text itself is easily readable and lavishly illustrated with almost 300 colour photographs and a clinical DVD to boot! The atlas format is enhanced by clear diagrams and a generous layout - it invites the reader to dip in and enjoy." (Sean Carrie, ENT News, Vol. 11 (6), 2003)

A must-read for surgeons at all levels who need to solve clinical problems and master the technical demands of rhinoplasty. The author, an internationally respected pioneer in rhinoplasty, presents his own surgical technique in this easily accessible atlas. Clear and concise, with a strong emphasis on both split-second decision making and surgical techniques, this book guides the surgeon through today's more complex and individualised operative plan, employing a diversity of techniques. The atlas contains over 1,000 exquisite, detailed intraoperative photographs and multi-component illustrations to literally walk readers through a variety of different procedures and complex cases, including open structure techniques, closed rhinoplasty, open/closed grafts, and case studies. In addition, the atlas features a special section of step-by-step operative analysis for reduction, augmentation and balancing surgical procedures. This is the definitive resource for surgeons wanting to improve results, as well as for residents and those learning rhinoplasty.
