Good choice of music for beginner/intermediate players

By Amazon Customer

I am pleased with the quality of the arrangements in this book. They are simple, yet do not destroy the integrity of the original composition. In other books, the chord structures are not always correct when it is transposed to an easier to play format. I highly recommend this book if you are a beginner to intermediate player and looking for a challenge. This book has enough challenge - (like the Grieg Piano concerto in A minor) to make you feel like you are a pro player.

Highly recommend this book!
