From Publishers Weekly

Bulla's addition to the new Stepping Stone series opens as Gregory's family moves to a smaller house in a poorer part of town; the father has lost his factory job. There is no yard at the new house in which to play, but Gregory explores a nearly burnt-out building that formerly was a chalk factory. Gregory finds plenty of chalk in the debris as he cleans up, and the artist in him soars. Even though the kids at the new school don't accept him readily, Gregory is happy for him the blackened walls of the building become his giant canvas. Bulla has created a gem of a book, without a wasted word anywhere. He conveys the yearning and passion of a young artist and the healing power of friendship in a story that goes straight to the heart. Illustrations not seen by PW. Ages 7-9.

A Real Gem

By rba

Nine-year-old Gregory's going through a tough time: his dad lost his job recently, he just moved to a new neighborhood, he switched schools, he didn't get to celebrate his birthday this year, and the one bright spot of everything -- the bedroom his parents added on to the house just for him (Gregory's never had his own room before) -- he has to share with his 20-year-old slacker Uncle Max, who just moved in. To make things worse, the kids at school aren't exactly standing in line to be his friends and his family doesn't have a lot of time for him now.

Things start to look up when Gregory discovers an abandoned chalk factory next door. Under the rubble are boxes and boxes of leftover chalk and Gregory starts drawing on the walls. What he draws and what happens when others take notice is the story.

Discussion:

This is one of the best beginning chapter books I've read in a long time. There are no 50 cent words and the sentences are short but the paragraphs pull you along so you'd never notice it. What makes this book so unique are the topics it skids around.

Gregory is a very frustrated little boy. His parents both work and can't afford to give him the art supplies, clothes, garden space, etc that his friends have access to. His uncle is more of a spoiled new brother than an adult and neither he nor Gregory's parents take much interest in Gregory's concerns and activities. His new teacher is nice but he's having trouble fitting in at school. There is no place in his house that is private. Nothing horrible ever happens but little things build up and although he doesn't know how to say it, Gregory's pent-up frustrations need an outlet. (He's not the only child in this book with this problem: a classmate, Ivy, also has difficulty putting words what's bothering her.)

In a typical beginner reader book an adult would take notice and step in and find a way to make Gregory feel special. Instead the author has Gregory discover an unlimited supply of chalk and 3 walls of the chalk factory to draw on. Now that Gregory has a place that he can make his own, everything else is more bearable. When he finds that he's the only one in his class without a yard to grow a garden in, he simply draws one on the walls outside.

It doesn't take long before others catch on to what he's doing, but by then Gregory has a little more control over his feelings (he no longer feels like kicking things). Again, Bulla is realistic: Nothing fantastic happens but things work out anyway and the ending is more satisfying because of it.

A Garden is in the Eye of the Beholder

By Plume45

Three burned and sooty walls prove an irresistible lure to a lonely 9-year-old boy. Friendless in a new school in a decaying neighborhood, and disrespected by his unemployed young uncle, Gregory discovers the

remains of a chalk factory behind his cement-filled back yard. Who says he can't have a garden like the other kids in his class--it's in the eye and the heart of the gardener, after all. In this case the gardener is a budding artist, who wants to recreate the beauty of nature and living things in this--his only private space. Even his skeptical parents discover that their son has talent, thanks to his conscientious teacher. Bulla's literary strokes are characterized by short, simple sentences and minimal kid dialogue. The author's canvas depicts a world of pre-teen loneliness, peer pressure and the innate need for social appreciation. But who will prove brave enough to defy the crowd? This is a good book for young readers who have suffered the trauma of moving or familial rejection, with good insight into the artistic temperament.

A Friendship

By A Customer

I really liked this book because it was about a kid named Gregory who moves to a new town with his mother and father. It is bad enough moving without having any friends, but not making any new ones is pretty bad too. Everyone was given some seeds to plant a garden. But at his new house he doesn't have much of a yard so he can't make a garden. Behind his house is a burned down chalk factory, so he draws a garden. If you want to find out if he makes any friends read this book.
