# **THE IRISH SLAVES: SLAVERY, INDENTURE AND CONTRACT LABOR AMONG IRISH IMMIGRANTS BY RHETTA AKAMATSU PDF**

They came in the holds of overcrowded ships, packed in among cargo and animals. They were sold to others to work as hard and under as dismal conditions as their owners chose. They were taken to the West Indies, to Barbados, to the American colonies, and beyond. A familiar story, is it not? But these immigrants, derived of all personal freedom, were Irish, and their servitude started long before black slavery was common. Even among those not enslaved, many were treated nearly the same as indentured servants, or later as contract labor on the railroads, mines, and other dangerous tasks. Your eyes will be opened by this book if you dare to allow them to be, as you learn more of this nearly forgotten part of world history. **NOTE TO READERS FROM THE AUTHOR:** This book contains quotes from written works and documents that have spelling other than the standardized spelling we use today. I did not correct this spelling. These are not typos or mistakes, as some readers have thought. They are merely historical differences.

A critical story that needs to be read

By Kathleen Fahy

This book tells how in the 1600 and 1700s the English made slaves of the Irish and shipped them in coffin ships to the Islands and the new American colony. These Irish had been disenfranchised of the lands and prevented from holding paid employment or educating their children and of course; practising their Catholic religion. The extreme racism of the British borders on genocide and left me feeling really angry and awake!

As an Irish descendent I found this story riveting but the writing poor. There are many repetitions, the story jumps around rather than follow an historical time line. The referencing is poor which makes trust in the truth a little challenging.

Very emotional read

By NinjaTerminatorDef-Rock

I am only a third of way through the book and I am emotionally drained. Much different picture of what happened then what we learned in social studies. I have been on the verge of crying a few times.

Just to let you know, I think this book was self published and I have found few misprints. I am not talking about the historical documents, but the narrative of author has a few mistakes (or the editor was sloppy).

Enjoying the book a lot, please get in on Kindle!

Do not waste your \$\$

By Lawrence B.

Purchased hoping for more history on my Irish-slave ancestors. It reads like a seventh-grade research report (of which I have read many!). Repetitive & out-of-chronological order. Many typographical errors, no page numbers, & a non-alphabetical bibliography! It adds very few additional facts that are not available free online or in other books. "Diary of an Irish Slave Girl" (tho fiction) & "Hell or Barbados" are much better done.
