Bob Burg does it again!

By Amazon Customer

This book is yet another excellent book written by Bob Burg. Unlike his books (The Go-Giver and It's Not About You), which are novels that teach people how to succeed by example following the student through the learning and discovery process, this book is written in the style of a training manual; with theory dialog followed by practical skill developing exercises. By reading and applying what Bob presents in this book, people can build off the charts incredible results. The most important thing anyone can do to achieve such results is catch the vision and decide those results are yours then never turn back on that decision.

real. qualified. simple.

By D. Francis, Jr.

There are so many classes, seminars, and books on the subject of sales that it is dizzying. And, I've tried/read many of them. Bob Burg's book is staying on my limited shelf because it is Real, he is Qualified, and the information is simple and easy to reference. He cuts out the jargon and keeps to the straight forward information.

Wish I had this when I got started!!!

By Timothy P. Williams

Bob Burg has truly helped out network marketers with this book. I only wish someone had handed me this book when I enrolled in my company. It will decrease the learning curve if you will just follow his principals, plug into the system that your mentors tell you to use, and duplicate. I am now going to explode my business, and go to the top!!
