2014 Pappas Mathematics Calendar

By Joanne Sullwold

I purchase this for my daughter who is a Mathematics Professor every year for Christmas and was very disappointed when it wasn't available last year.

This is her favorite present and will be very pleased that I was able to purchase it this year.

PLEASE keep it in your inventory every year if at all possible.

Great for the mathematical minded

By C. Hann

This is a great calendar that gives one a daily math puzzle that can involve all facets of Math from Geometry to Algebra to Calculus. It keeps the brain active and provides fun for the number loving person.

This is the second one I've had.

By Tracy

I enjoy the challenges, but I actually have another calendar that I use as an actual calendar. You cannot use the Mathematics Calendar to keep a record of appointments or anything like that because each box is totally filled with the math problem. I would prefer a larger size calendar and one that has some blank space in each day box to write a note or work the math problem. Those are the reasons I give it three stars. Having said that, I will probably buy it again in 2015.
