Confidence.... in written form

By L Beck

Massive Confidence Builder

For me the book was a confidence builder. Trading is often solitary and it takes discipline to follow the trading system. Your actions are often small moves in a much larger game that is not revealed until years later. Watching profits amass in this book were wonderful. You see how calculated moves done over an extended period of time can and do pay off.

It is a cheap way to build confidence. I enjoyed it!
