This comprehensive, illustrated maneuvers manual is an excellent learning and teaching aid for instructors and students, covering all the flight maneuvers required for Private, Sport, Commercial, and Flight Instructor certification. This is the version intended specifically for high-wing type airplanes. Each maneuver is depicted in detail according to type of aircraft in which the lesson will take place, states the objective of the task, and lists the practical test standards required. Fully illustrated with fold-out pages that show each maneuver complete on a large, one-page spread, allowing the reader to absorb all the visual and textual information together and all at once.

Compact and easy to carry, with spiral binding for easy access to the fold-out pages. The illustrated fold-outs show each maneuver step-by-step, so pilots understand what they should be looking for outside the cockpit window.

Contains full descriptions of stalls, slips, and ground reference maneuvers, as well as short, soft, and crosswind takeoffs and landings. Included are suggested checklists for everything from preflight to takeoffs and landings, performance, and checkrides, and an easy-to-use index so pilots can quickly refer to any desired task. The latest FAA practical test standards, regulations, and procedures for high-wing-type aircraft have also been incorporated into the new edition.

The BEST visual teaching aid for airplane maneuvers!

By Flymeariver

Absolutely the best quick reference I have ever seen. Excellent visualized teaching aid that won't bore the learner. Simply easy to read without too much extraneous information. Just enough details to perform the maneuver to standards. HIGHLY recommend!

Very useful for CFI applicants

By Snaproll88

Very useful for reference for writing maneuver lesson plans as a CFI. I'd buy this again in a heartbeat and I'm very happy to have it in my aviation reference library.

lowest price than any pilot shop

By Daniel C

Super recommended for commercial pilot licence candidates! just look before buying if your plane is high or low wing, ASA offers both books!
