An inspiration-packed, practical guide to selling articles

By Robert M. Bittner

I found the title lackluster and vague, but the contents themselves are first-rate. The book is jammed with brainstorming ideas and practical tips for selling articles of national interest---no matter where you live. Yudkin certainly brings her own expertise to the topic, but she also includes a generous sampling of quotes and helpful advice from other real-life freelancers and writing professionals. There are fewer than half-a-dozen writing books I return to year after year for inspiration and refreshment; this one will certainly join that select number.
